DATA ANALYTICS EXPERIENCE

FLEET & LOGISTICS PERFORMANCE DASHBOARD

Power BI | Microsoft Excel

- Cleaned, transformed, and modeled data from 14 related logistics datasets using Excel, Power Query, and Power BI.
- Built interactive dashboards to monitor fleet utilization, driver performance, route profitability, fuel efficiency, maintenance costs, and customer performance.
- Developed DAX measures and KPI reports to support data-driven business decisions.
- Presented insights through executive dashboards with dynamic filters, drill-through functionality, and data visualizations.

SALES PERFORMANCE DASHBOARD

Power BI

- Transformed and modeled sales data to create an interactive Power BI dashboard for monitoring revenue, sales trends, customer performance, and regional performance.
- Developed DAX measures and KPI cards to track key business metrics and enable data-driven decision-making.
- Designed dynamic reports with slicers and visualizations to present actionable insights to stakeholders.

SALES PERFORMANCE DASHBOARD

Microsoft Excel

- Analyzed sales data to identify revenue trends, customer behavior, and product performance.
- Built an interactive dashboard using Pivot Tables, Pivot Charts, slicers, and advanced Excel functions.
- Developed KPI reports that simplified business performance monitoring and reporting.
